

ClickUp for Fundraising

Nonprofits rely heavily on fundraising efforts to support annual revenue goals. They also bring the community closer and give back to important and/or underrepresented causes. Fundraisers require a tremendous amount of event management, which can feel daunting to even the most experienced leader.

How does ClickUp help?

-  Instantly import event management templates from ClickUp's Template Library.
-  Integrate a digital sign up form with your ClickUp instance to automatically deploy to-do's based on attendance, or communications that registered individuals may need.
-  Track dozens of event to-do's in ClickUp so you don't drop any balls. Get an automated email of your tasks for each week or day straight to your email.
-  Monitor event budget in ClickUp for immediate reports of where you're at and where the majority of expenditures are going.
-  Store all event team and volunteer contact information in your ClickUp database for tracking and easy access.
